# thyssenkrupp Industries India bags order from Shiva Cement for its new project in Odisha, India

Marking a successful beginning of FY 2020-21, thyssenkrupp Industries India has won a contract from Shiva Cement for its new project in Odisha. The contract includes design and supply of a complete 4,000 tonne per day Pyro line in Odisha, India. Shiva Cement is a subsidiary of JSW Cement Ltd, India's leading Green cement manufacturing company.

Shiva Cement has a manufacturing facility in Odisha. It's holding company, JSW Cement is part of US\$ 12 billion JSW Group, India's leading business conglomerate with interests in Steel, Cement, Energy, Infrastructure, Paints, Private Equity and Sports. The Cement business' manufacturing footprint is flanked across South, West and East regions of India. JSW Cement also has a clinker facility in Middle East. The Company is targeting 25 MTPA capacity over the next couple of years.

Talking about the contract win, Mr. Vivek Bhatia, MD & CEO, thyssenkrupp Industries India said: "We are delighted to have won the trust of Shiva Cement for this prestigious order. We are already seeing green shoots and a return to capital investments in the Indian cement industry. With our distinct technological advantages, thyssenkrupp Industries India is very well placed to capitalize on this trend. We look forward to supporting Shiva Cement in its growth plan."

V.N. Balasubramanian, Director Cement Division said: "This order received from Shiva Cement is of utmost importance to us considering its expansion plans in the Indian cement sector. We are glad to share that all the core equipment from the storage yard to clinker cooling will be supplied by thyssenkrupp for this project. It includes our state-of-art equipment such as quadropol® for coal grinding and a new-generation polytrack® cooler. This prestigious order, our first from Shiva Cement, certainly helps to strengthens our market position in the cement business not only on the Indian subcontinent but also in the Middle East as a reliable one-stop solution provider."
